This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

EXPLANATORY.

In compiling the names of ex-soldiers and sailors of the Civil War, residing in the state on June 1, 1905, the plan of arrangement adopted in the census of 1895 has been followed, those of Wisconsin organizations being placed alphabetically under separate heads.

Although no other part of the recent census received, proportionately, so much time and attention, mistakes will doubtless be found in the compilation. Either by carelessness of the enumerators or of copyists in the offices of county clerks, the returns were in many cases incomplete.

Imperfect penmanship, incorrect spelling of names and omissions of necessary data rendered the task of compilation a very difficult one. In some instances it was impossible to identify names as to company, regiment or state. All such names were classified as "Soldiers of Other States."

The total number of names returned by the census enumerators is 17,731. To this number a few names have been added, being supplied by ex-soldiers who examined the returns and noted the omissions. There is no doubt that the enumerators failed to return the names of many ex-soldiers and sailors. It is to be hoped, however, that the number is not large. Much as the omissions are to be regretted, there was no way to make corrections except in manner indicated, which could cover but few cases.

In order to make the list as nearly correct as possible all available records were consulted, the work of compilation

Digitized by Google

being under the direction of an ex-soldier familiar with all details.

When the next census is taken it will be found that many whose names are found herein have taken part in the "Grand Review." It is therefore to be hoped that veterans may find in this volume a means of locating and communicating with their former comrades in arms.

WALTER L. HOUSER,
Secretary of State.

SUMMARY.

In connection with the summary it will be of interest to note that according to the official records, the total number of men Wisconsin is credited with having furnished to the war is 91,327, divided as follows: Infantry, 77,375; cavalry, 8,877; artillery, 5,075. Of this number 3,802 were killed in action or died of wounds; and the number of deaths from all other causes, 8,499. Total deaths, 12,301. Of the 79,006 who were supposed to have been alive at the close of the war, this volume shows 9,521 were still living in the state on June 1st, 1905, being credited to the several branches of the service as follows: Infantry, 8,067; cavalry, 816; artillery, 628; Berdan's sharpshooters, 10.

The summary further shows that the first regiment of heavy artillery has the greatest number of living members (319) and the eleventh battery of light artillery the least (1).

The number credited to each is as follows:

ENUMERATION

OF THE

SOLDIERS OF THE CIVIL WAR

Who Served in Wisconsin Regiments and Batteries, Etc., and Reported by the Enumerators as Residing in the State June 20, 1905.

☞All names of soldiers returned by the enumerators with the company, regiment, or state omitted, have been placed in the list of "Soldiers of all other States," (see page 156) for the reason that there is no conclusive evidence that they served in Wisconsin organizations.
